## A TRAIN ROBBERY.

The Presidential Party in St. Louis.

## THE SACRAMENTO "BEE" STRIKE

Sixteen of the Composers Walk Out.

Blaine Going to Ohio to Help McKinley.

## The President's Party.

By Associated Press.  
St. Louis, October 11.—President Harrison arrived this morning. His trip from Kansas City was uneventful. On his arrival the President was taken in charge by Gov. Francis, Mayor Noonan and a reception committee, and was given a military escort to the Southern Hotel, while a military salute was fired and the multitude cheered. The President reviewed the procession from the balcony of the hotel.  
In an address at the Merchants Exchange the President aroused great enthusiasm by referring to the extension of the roads running southwest to the water. He could see no reason why the trunk lines should not run to the southwestern coast as well as the eastern. He believed we would regain our share of the world's commerce, and that from these harbors on the Gulf we would develop a great and profitable trade with South America.

## A Printers' Strike.

SACRAMENTO, Oct. 11.—The entire force of the Bee composing room, except two men, walked out this morning in compliance with the orders of the Typographical Union. The paper to-day is made up of miscellany. The Union notified the Bee that it must discontinue the use of stereotyped stories, though the composers were given the same wages and work as before, and said it made no difference to them. The Bee's refusal created a friction.  
The stereotyper was discharged last night for a breach of contract, under which he was engaged. He was a member of the Typographical Union and his reinstatement was demanded this morning, and, on a refusal, sixteen men went out.

## Secretary Blaine to Canvass Ohio.

By Associated Press.  
WASHINGTON, Oct. 10.—The demand for Secretary Blaine in Ohio, and especially in Major McKinley's district, has been more than the Secretary could withstand. He will go away some time next week and will have with him Representative Dalzel of Pennsylvania. Blaine said the other day that he desired to go very much, and would if the business of the State Department would permit. A great deal of pressure has been brought to bear on the distinguished statesman. It is stated this afternoon on reliable authority that he will talk for the benefit of McKinley, and perhaps for one or two other Republicans who are striving to keep their heads above water in the gerrymandered districts.

## A Train Robbery.

By Associated Press.  
FOUR SCOTTS (Kan.), Oct. 11.—Last night the Missouri, Kansas & Texas passenger train was robbed by four masked men near Schell City, Mo. The robbers compelled the engineer to dismount and knock the express car down, and the messenger threw out the money packages, not knowing how much they contained.

## THE DEMOCRATIC CONVENTION.

The Democrats in Council—A Disposition to Put Up a Good Ticket.

The Democratic Convention was called to order at 11 o'clock this morning by John Richardson, Chairman of the Democratic Central Committee. Mr. Richardson made a neat and patriotic speech, and said the first order of business would be the election of temporary officers and the appointment of the usual committees. F. W. Hagerman placed the name of P. H. Mulchay before the Convention for temporary chairman, and C. A. Jones that of Dr. H. Bergstein, which resulted in the choice of Dr. Bergstein. Dr. Bergstein took the chair, and on motion proceeded to the appointment of the following committees:

On Credentials—F. W. Hagerman, Henry Orr, and W. A. Martin.  
On Permanent Organization and Order of Business—Chas. Gulling T. N. Shaber and W. J. Foxwell.  
On Resolutions and Platform—P. H. Mulchay, F. R. Lewis, C. A. Jones, Mr. Hardin and Mr. Hidenrich.

The meeting then elected John P. Richardson Sergeant-at-Arms, and on motion adjourned till 2 o'clock.

## AFTERNOON SESSION.

The convention was called to order at 2 o'clock and the Committee on Order of Business and Permanent Organization reported and recommended that the temporary officers be declared permanent, and it was so ordered. The Committee on Credentials reported, and it was adopted. The Committee on Platform and Resolutions reported through their Chairman, C. A. Jones, and it is here given in full:

Recognizing the true worth and straight-forward manner in which the Democratic State Convention, held in Reno, September 12, 1890, presented to the people its platform, and the completeness of its scope, we re-assert the principles therein contained and endorse it as a part of the platform of this convention.

We lay special stress upon the doctrine of the election of honest and capable citizens of the State and county to office; of securing a free and intelligent exercise of the ballot; of restraining corporate abuses and usurpations; of adjusting and equalizing taxation, and of perpetuating the fair and honorable name of Washoe county.

We utterly repudiate the idea, that to be successful in sustaining our principles we should bow down and worship the golden calf.

In particular we endorse the Democratic State Platform in denouncing the present ill-advised and impracticable law, passed by a Republican Legislature, requesting the use of waste water for irrigation and for setting the priority of right thereto, and demand the repeal thereof.

We pledge the nominees of this Convention to the economical and honest administration of the offices of both State and county.

C. A. Jones placed in nomination Charles Gulling for Senator, and the nomination was seconded by P. H. Mulchay. No other nominations being made, Mr. Gulling's name was endorsed, the platform and in a neat speech gracefully accepted the nomination.

On motion, Mr. Gulling was declared the unanimous choice of the convention.

Dr. Bergstein placed in nomination for Long-term Commissioner W. P. McLaughlin, and he was declared the unanimous choice of the convention.

George S. Smith of Washoe was placed in nomination for Short-term Commissioner, and was nominated by acclamation.

John B. Williams was placed in nomination for County Recorder, and was nominated by acclamation.

O. H. Parry, W. W. Rodgers and Ed. Winfrey were placed in nomination for County Clerk, which resulted in the choice of O. H. Parry.

Richard Ryland was placed in nomination for County Treasurer, and was declared the unanimous choice of the Convention.

L. J. Flint was nominated Sheriff by acclamation.

C. H. Stoddard received the nomination of Assessor by acclamation.

Charles McFarlin was placed in nomination for County Surveyor, and he was unanimously chosen.

The Convention at this stage of the proceedings adjourned until 4 o'clock.

Upon reconvening of the Convention the next order of business announced was the nomination of three Assemblymen. F. C. Updike, A. D. Griffin and B. C. Shearer were placed in nomination, and declared the unanimous choice of the Convention.

T. A. Reed was nominated Public Administrator and Coroner, and the office of District Attorney was left vacant for the County Central Committee to fill.

## A Challenge.

Mr. Cassidy challenges Mr. Bartine to a joint discussion of the political issues of the day. Mr. Bartine had already been billed to speak in the different towns in this State, and it is not at all likely that the two candidates will be able to get together until very late in the canvass, if, indeed, at all.

## Beaten and Robbed.

Special to the GAZETTE.  
SAN FRANCISCO, October 10.—A Chronicle Monterey special says: Yesterday afternoon Captain E. S. Josselyn, an ex-Assemblyman of this county, left Monterey as usual for his home, adjoining the gardens of the Del Monte hotel. As he drove up to the rear of his house two men suddenly appeared and ordered him to halt. Josselyn attempted to jump from his buggy, but tripped and fell to the ground. The men fired two shots at him as he jumped, both missing. Before he could rise the men jumped on him and beat him unmercifully. They then bound him hand and foot, taking about \$30 from his pocket. They then locked him in a room and proceeded to ransack his house. This done, the robbers returned to him and coolly discussed the question of murdering him, but they finally decided to spare his life.

Leaving him bound, they cooked dinner and invited him to join them, but he refused to do so. After dinner they laid around and enjoyed themselves until 3 o'clock this morning, when they went away.

About daylight Josselyn succeeded in freeing himself and giving an alarm. The robbers left here on the morning train for San Jose, and are being closely pursued. Should they be captured and brought back violence is feared, as the citizens are much excited by Josselyn's bruised and wounded condition.

## An Immense Fortune.

By Associated Press.  
TRENTON (N. J.), Oct. 10.—Joseph T. Capple and his three brothers, all poor men living here, say they have received information that they are heirs to the estate of James Wood, deceased, of England, who left property worth \$80,000,000. Mr. Wood, who was a banker in Gloucester, England, was a brother to Mrs. Capple, mother of the claimants, and they, it is claimed, are the nearest relations. Mrs. Capple and her brother never met, he having been born in England and she in this country. The attorney for the brothers sailed for England yesterday for the purpose of presenting their claim.

BAKERSFIELD (Cal.), Oct. 10.—The Kern Californian says: A son of J. P. K. Cox, who lives near San Emidio, while hunting, was bitten on the leg by a rattlesnake. He was several miles from home and assistance was impossible; but he rose to the occasion and manifested a remarkable degree of courage and resource for a boy only ten years of age. He remembered to have heard his father say that raw meat applied to the place bitten would draw out the poison. So he made incisions above and below the bite and applied a quail which he had cut open. Fortunately he had with him several of these birds that he had shot. He was very sick for a time, but the application was successful. The raw flesh drew out or absorbed the poison.

## 5 O'CLOCK EDITION.

### Colcord's Record.

The following correspondence between R. K. Colcord, the Republican nominee for Governor, and the Miners' Union of Bodie, published in the Enterprise of this morning, is self-explanatory, and explodes another Democratic "charge."

Bodie, Cal., Oct. 7, 1890.

Editor Enterprise—Dear Sir: Living just across the line from Nevada, we learn that the Democrats of your State have been accusing Mr. Colcord of being a low-down man. That might be swallowed in some places, but it cannot be here, where he is held in high esteem by miners who always knew him to be friendly to their cause, and through whose unsolicited influence a few years ago a damper was put on an attempt to reduce wages in this district. The Miners' Union knew this and gratefully tendered him a vote of thanks, of which the following is a copy:

HALL OF BODIE MINERS' UNION, Bodie, Cal., Jan. 21, 1885.

Supt. R. K. Colcord, Bodie—Dear Sir: At a meeting of the Bodie Miners' Union, held in their hall on the evening of the 20th instant, the following preamble and resolutions were unanimously adopted:

PREAMBLE AND RESOLUTIONS.

WHEREAS, The Bodie Miners' Union, knowing the friendship that Superintendent R. K. Colcord has always shown toward their organization; and WHEREAS, It is known by this Union that Superintendent Colcord did recently resist an attempt to reduce wages in this district; therefore, be it Resolved, That this Union tender Superintendent R. K. Colcord a vote of thanks, and that the same be spread upon the minutes.

Resolved, That the Secretary be instructed to present in person a copy of these resolutions to Mr. Colcord.

A. E. McMillan, President.

SAMUEL TYACK, Sec. Sec'y.

I inclose you the answer of Mr. Colcord, which is furnished through the courtesy of the present Secretary. I wish to add that the Miners' Union, as a body, has nothing to do with publishing the above. Being strictly non-political, not a word of politics is allowed to be uttered inside their doors, but on the outside and individually, Miners' Union men recognize his worth. Very respectfully,

SAMUEL TYACK.

This is Mr. Colcord's reply to which reference was made:

Bodie, Cal., Jan. 27, 1885.

A. E. McMillan, President; Samuel Tyack, Secretary, and Members of the Bodie Miners' Union—Dear Sirs and Gentlemen: I am in receipt of a communication from your organization notifying me that a unanimous vote of thanks had been tendered me for my action regarding the question of a reduction of wages of miners in this district. Although my opinion upon this subject is well known, yet never having been called upon to publicly express my views, I must regard your action as a personal compliment, one which I assure you is fully appreciated and highly esteemed by me. For which you will please accept my hearty thanks and best wishes for the continued prosperity of your very worthy organization.

Very truly yours,

R. K. COLCORD.

The more Mr. Colcord is rubbed by the Democratic press the brighter he shines. It is hard work for them to use any legitimate argument against a man who has always been the friend of labor. Mr. Colcord will come out of the canvass the cleanest candidate for Governor this State has ever had.

CONGRESSMAN BARTINE comes back from Washington to make his canvass loaded with data that is indisputable. The one year he has spent in the Nation's Legislative halls has polished him off, and he will return to his post next December better qualified to do good work for this State than ever. Mr. Bartine went to Washington a stranger to his colleagues and to methods of legislation, and it is but fair to him to state that no man ever returned to his constituency from a first term with a brighter record than has Mr. Bartine. He made friends with men from all parts of the nation, and they acknowledged his ability. While he has made some mistakes (and the GAZETTE has called attention to them before), his record, as a whole, is far above the record made by any first-terminer who has ever gone as a representative from this or any other State in the Union.

He will profit by his year's experience and make fewer mistakes during his next term, and should be returned to Congress by a majority of at least twelve hundred. During his term he has done good work in the interest of silver, and General Warner of Ohio paid him the high compliment of saying that he understood the question better than any other Congressman

from the West. The people can rest assured that Mr. Bartine will use his talents in an honest endeavor to better our condition.

If the Democratic press waste much more ink in the discussion of whether Mr. Colcord is on the Emerald assessment roll or not, he will be elected by a majority of at least two thousand.

MR. WINTERS is the owner of a band of thoroughbred horses to be sure—and some of them world beaters—but is that the only qualification necessary to make a good Governor? One would think so by reading the Virginia Chronicle.

WOULD Mr. Cassidy advocate the annexation of Nevada to Utah if he should be elected to Congress? He seemed to take more interest in Utah's welfare than he did in Nevada's when he occupied a seat in that body before, and it would not be surprising if his sympathies would go with the Mormons if he should get back.

HON. R. R. BIGELOW, the Republican nominee for Supreme Judge, is a jurist whose unflinching integrity should recommend him most highly to the people of this State. He has the reputation of being one of the ablest judges who ever occupied a place on the Nevada Bench; he is prompt in his decisions, keeps his docket clear and has the faculty of dispatching legal business in a satisfactory manner to both litigants and the general public, and should be elected by an overwhelming majority.

THE Carson Appeal says: The attempt on the part of the State to ruin the Reno Reduction property and pinch William Thompson will fail. If the asylum Commissioners are acting in good faith, then they might as well understand that they are being used as a cat's paw by parties in Reno, who, not willing to risk their own money in crushing Thompson, have concocted a scheme by which the State will punge the cost of litigation if the scheme fails. The scheme will fail.

THERE are going to be a good many changes made in our coinage this year. Congress provided for the discontinuance of the coinage of three dollar and one dollar gold pieces, and the three cent nickel pieces. Then, a commission to be appointed by the Director of the Mint, has been authorized to devise more artistic designs for all our coins. A prize of not over \$750 is to be paid for each design that may be adopted. The general impression is that the design of the silver dollar in particular should either be radically changed or modified and the outline softened. Except in the silver dollar and the five cent nickel pieces there has been no change in design on any coin of the United States for about forty years.

### ROUTED BY GRASSHOPPERS.

A Flock of Turkeys Put to Flight by the Voracious Insects.

Farmer James C. Fairchild, of the Upper Paupack region, asserted to a Scranton (Pa.) correspondent that the New York State that he had never known grasshoppers to be as thick in this place as they have been during August. In a three-acre field of late rye the insects were so numerous that they ate all the blades off the stalks and sucked all the juice out of them before the crop was ripe. One day Farmer Fairchild left his white vest at the edge of the lot, and when he went to put it on at night he found that the grasshoppers had eaten hundreds of holes in it. The grasshoppers seemed to increase several fold each day in that particular field, and it appeared to him as though they came out of the ground nearly full grown.

As soon as the rye was put into the barn, he turned the turkeys into the stubble. A high stone wall surrounds the lot, and the turkeys drove the hordes of grasshoppers ahead of them, and gobbled up what they wanted. One day the turkeys drove apparently millions of the insects into a corner of the field. They couldn't get over the wall or through it, and several bushels of the grasshoppers, Farmer Fairchild declared, turned upon his flock of turkeys and came within an ace of swamping them. The fowls were completely covered with grasshoppers, and the insects kept coming at them so thick and fast that the turkeys finally took to their legs and wings and went squalling toward the center of the lot as though something had scared them half to death.

After a little, one of the gobblers rallied the flock and led them back to the corner. He gobbled a number of times on the way and the other turkeys marched abreast of him and gobbled defiantly at the grasshoppers, the hens bringing up the rear and talking saucily as they marched. Well, up toward the corner of the field the flock spread out, and in a moment innumerable wings were buzzing toward the wall. Pretty soon the grasshoppers were as thick in the corner as they had been before. There wasn't room for them all, and again they turned upon the turkeys and the turkeys turned tail in an instant, scattered across the lot and flew over the bars into the roadway. The fowls had plainly been badly scared by the grasshoppers, and since then Farmer Fairchild has been unable to get his turkeys to stay in the rye field for ten minutes at a time.

### Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Wherever introduced, its sales have grown from year to year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

### Positive Statements.

"Since Hood's Sarsaparilla has been in my hands for sale I have had frequent and unreserved testimonials in its favor. Although carrying this preparation for less than one year, my sales have been greater than of any similar preparation, and the testimonials in its favor are at once positive and personally noticeable." A. WAGNER, Haldsburg, Cal.

### Sells On Its Merits.

"My boys say, 'Papa, why don't you buy more of Hood's Sarsaparilla at a time; we are always short.' It sells on its own merits." F. BEAL, Portland, Oregon; the oldest druggist in Oregon.

## A Hipe Old Age.

S. H. Holcomb and wife, of Belcher-ville, Texas, have celebrated their fifty-fifth wedding anniversary and are still hale and hearty. The secret of their long life and good health is that they correct any slight ailment promptly, and in that way avoid serious sickness. Like most every one else, they are more frequently troubled with constipation than any other physical disorder. To correct this they take St. Patrick's pills in preference of any other, because, as Mr. Holcomb says, "They are a mild pill and, besides, keep the whole system in good order. We prize them very highly." For sale by Shoemaker & Co., druggists.

## A Scrap of Paper Saves Her Life.

It was an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, bought another and grew better, fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For further particulars send stamp to W. H. Cole, druggist, 10 Smith. Trial bottles free. Write for full copy free at W. Plummer's drug store.

## Ruepey.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee the Electric Bitters, if used according to directions and the use persisted in will bring you good digestion, and cure Dyspepsia, and install instead Ruepey. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and \$1 per bottle by W. Plummer druggist.

There may be persons in this community who are at times troubled with colic, or subject to attacks of bowel complaint. If so, they should try Chamberlain's Colic, Cholera and Diarrhoea Remedy. It will afford almost immediate relief, and when reduced with water is pleasant to take. If taken as soon as the first indications of the disease are felt it will ward off the attack. Many people use it in this way, and find that it never fails them. A 25 or 50 cent bottle may be obtained from Shoemaker and Co.

## A Sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blood, itching and protruding, yield at once to Dr. Ross's Pile Remedy, which, applied directly on the parts affected, absorbs tumors, allays itching and effects a permanent cure. See Druggists or mail; free, free, Dr. Ross's Pile Remedy, O. Sold by S. J. Hodgkinson.

## The Place to Buy.

A. Nelson, of the Free Intelligence Office, Virginia street, carries a fine stock of the best tobaccos, Havana and Key West cigars, notions, cutlery goods, underwear, overalls, buckskin gloves, suspenders and Dr. "Willey's Discovery."

Bucklen's Aromatic Salve. The best salve in the world for cuts, bruises, corns, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For by Wm. Plummer.

Ask for Fryer's Abolition Cough Balm. Take no other. It is the most pleasant and best cough remedy in the world. It contains no opium. Price 75 cents. Sold by Wm. Plummer. The original and genuine Abolition preparations bear the fac-simile signature of D. F. Fryer.

J. E. Moore of Stockton, Cal., says:—"I have Abolition for man and beast, for lame legs and aches and pains has no equal. Am never without it." The official and genuine Abolition preparations bear the fac-simile signature of D. F. Fryer.

## NEWLANDS' BOOK.

Suggestions as to a General Plan

For the Irrigation and Reclamation of the Arid Lands of Nevada.

(Continued from yesterday's edition.)

## IRRIGATION POSSIBILITIES ON THE HUMBOLDT.

The Humboldt river rises far away on the other side of Nevada from the drainage basin of which we have thus far spoken, and flows westerly towards the sinks of the Truckee, Carson and Walker. Meandering through the State for 300 miles, this river with its tributaries commands over a million acres of arable land. The soils are good, and seem to be quite free from alkali.

Irrigation enterprise has here met with little development. The Humboldt is a stream of great drainage area, and from season to season is most variable in its discharge. If ever there was a region which should bring forth the most thorough and intelligent action on the part of a people and Government for the reclamation of lands, it is the region of the Humboldt valley. Without a sound policy, a far-reaching action, and a thorough system, this vast area of rich soils must remain desert. With such action and policy, combined with energy, the Humboldt valley will, in my judgment, support a large population. Waters can be stored there in artificial reservoirs. We know of the location and the general feasibility of a number of such reservoirs. These stored waters, spread upon lands along the Humboldt river, will produce vegetation. The drainage from these lands will find its way back into the main stream. The river below will thus be perennially supplied. Its summer volume will be maintained by the storage of its winter waters, which are now wasted; a population will gain a foothold; gradually a foresting of the mountains and hills can be accomplished; rain and snowfall will be promoted and the water supply increased. This is not a visionary picture, and it is not looking so very far into the future, if we can only secure concert of action and the energy which the conditions seem to call for. Such things have been done elsewhere—why not in Nevada?

The engineering problem in so extensive a system is great. Though only a small part of the resources of this stream has been determined with any degree of accuracy, sufficient is known to prove beyond question that organization and capital only are required to develop a vast resource. The water fall in the higher watersheds is greater than is generally supposed to be. Storage sites are available. Shall we save the surplus and make a prosperous country? The well-known surveyor, E. C. McClellan, reports fifteen good places for storage in Elko county alone, and several others in Humboldt, Lander and Humboldt counties. From Humboldt lake, going east, there is a good point for storage opposite Oreana, where, for a comparatively small sum, 20,000 acres in cultivation around Lovelock could be secured from drought.

Another great opportunity exists where the valley spreads out at Iron Point. Here a fine lake could be created by a dam across the main stream. Near Carlin, Beowawe and Halleck similar opportunities are presented. These are economical storage may be artificially effected. Reese river could be stored at a point half way between Battle Mountain and Austin. All the land below is good, and much of it is cultivated now, though subject to the effects of drought. Rock creek affords several good reservoir sites and Martin creek one. The south Humboldt, about ten miles south of Elko, offers a valuable location. There are four such, with immense watersheds, on the North Fork. Bishop, Maggie, Susie and Hanks creeks all have good places for storage, with large areas of land upon which to use the water within each reach.

As the Southern Pacific Company has large tracts of land along the Humboldt, it would be business-like on its part to pay particular attention to the development of the storage system on that river and its tributaries. In a recent conference with Col. Chas. F. Crocker, Vice-President of the Southern Pacific Company, he has agreed with me to have a preliminary reconnaissance of the field made by the eminent engineer, Wm. Hammond Hall. He will shortly examine the country with local surveyors and people familiar with it, and if his report is satisfactory, the company will make thorough surveys made of this watershed, with the view to determining its facilities for storage and irrigation.

## GENERAL CONCLUSIONS AS TO WATER STORAGE AND CANAL BUILDING.

I sum up the subject by saying that within that portion of our State to which I have been enabled thus far to pay attention, hundreds of thousands of acres of land, as good in quality as can be found anywhere in the great West, can be made fruitful by irrigation, at a cost for water storage running between five and fifteen dollars per acre, and canals can be built for the delivery of these waters at a cost between two and a half and ten dollars per acre. Thus lands which are now almost valueless can, by utilizing the best schemes, be provided for at a cost ranging from seven and a half to twenty dollars per acre, and be rendered as productive and as valuable as any which are now irrigated in our State, and which readily command from fifty to one hundred dollars per acre.

On this point of cost of reservoirs and canals, I call attention to a valuable letter which I have received from Mr. Wm. Hammond Hall, Supervising Engineer of the United States Irrigation Survey, which is printed in Appendix A.

The question of means remains to be considered. It seems that we must dismiss all hope of aid from the General Government, except it be in donations of land. As the matter now stands, we must rely upon our own efforts, and should the Government,

as has been proposed, grant to Nevada all the desert lands within its borders, the question would then be a greater one, for we would have to decide upon a policy for the development of a vast public domain. Are we to take hold of this question as a State, and if so, in what way? Must the counties act for themselves, and if so, under what system? Are we to have districts for the special purpose of irrigation and water storage, and if so, under what plan of organization? Or are we to have a mixed system of water storage by the State, and construction of irrigation works by counties or by districts? Or, finally, is this whole field to remain for private or corporate enterprise, and if so, are there to be laws for the protection of capital, as well as for the interests and rights of the people?

Has the State the capital to enter into enterprises of this kind? The people have the State Treasury nearly \$700,000 in cash and United States bonds derived from the sale of public lands and held for the benefit of our public school system. From this fund the State borrows when in need of money for general purposes. The construction of such a system of irrigation, even to the State itself, is placed at \$300,000. The State has already exhausted over \$150,000 of this limit. Would it not be well to increase this limit and thus enable the State by borrowing and utilizing its own school fund to develop the irrigation resources by the construction of storage and irrigation works? Or would it be best to provide for county or district organization for storage and irrigation works?

There would be little difficulty in effecting a county organization on the Truckee river, for that portion of the river flowing through Nevada is all in Washoe county. I have already secured the nucleus of a thorough irrigation scheme on the Truckee by obtaining the dam site heretofore referred to near the outlet of Lake Tahoe, by the purchase of Donner lake and the construction of a dam there, and by the purchase of land essential to the Hennessey Pass and Sardinia valley reservoirs, as well as by purchasing from the State 7,000 acres of land in Warm Spring valley. I have expended for all for the enterprises, and for the surveys necessary to utilize them, about \$60,000. The condition of these properties is such now that they will insure to all the lands now under cultivation in this county a constant supply of water, and they are capable of such development as to secure against drought all the arid lands to which I have referred in Lemmon's Warm Spring, Prosser and Spanish Springs valleys, and the land lying east of Wadsworth—in all, 85,000 acres. Very little of this land is outside of that in Prosser and Spanish Springs valleys, and that purchased by myself in Warm Spring valley, is held in private ownership. The title to the rest is either in the Central Pacific Railroad, under its grant, or in the United States. The title of the latter can be secured by the county by purchase from the State as a part of its 2,000,000-acre grant, for one dollar and twenty-five cents per acre. The other half could be purchased from the railroad company at a nominal rate, for it seems to have no disposition to develop the property itself, and of course its interest is to hasten the country settled. Doubtless the company would sell its lands in Lemmon's and Warm Spring valleys, and those east of Wadsworth, at the Government price of one dollar and twenty-five cents per acre. The county could thus secure title to the following lands:

	ACRES	COST
In Lemmon's valley	20,000	\$25,000
In Warm Spring valley (including 7,000 held by myself)	15,000	31,250
Lands east of Wadsworth	50,000	37,500
Totals	85,000	\$93,750
Add cost of storage system now held by myself		60,000
Total cost		\$153,750

## Human Frailty.

We are frail creatures physically—the most robust among us. The unhealthy man or woman is in great measure incapable of benefit to society. If for instance, biliousness, a trouble of frequency and often obstinate resistant of ordinary medication, obstructs the harmonious action of the liver and the bowels, the sufferer is sure to be despondent. The three disorders conditions are sure to be confirmed by neglected remedies, the sufferer is apt to become neglectful, may even reach, and the sooner he is removed from the sphere of human endeavor the better for all parties concerned. What a series of mistakes! His liver is responsible. It is an important part of himself. How disoblige! By the aid of Hostetter's Stomach Bitters, a certain medium for the re-establishment of united regular action in the stomach, liver and bowels. It also prevents malaria, rheumatic and kidney troubles.

For rheumatic and neuralgic pains, rub in Dr. J. H. McLean's Volcanic Oil Liniment, and take Dr. J. H. McLean's Sarsaparilla. You will not suffer long, but will be gratified with a speedy and effective cure.

## BREVITIES.

Local and General Intelligence.

A heavy frost last night.

The indications are that we are going to have another severe winter.

Don't forget that this is the evening for Hyman Fredricks watch-club drawings.

Read Mrs. Sample's 50-cent ad. of furnished rooms to rent in to-day's GAZETTE.

W. O. H. Martin is doing a constantly increasing business in the hardware line.

John Sunderland estimates the value of his stock to have been increased fully \$5,000 by the passage of the McKinley Tariff bill.

Voters do not want to forget that the 20th inst. is the last day for registration for those desiring to vote at the coming election.

The three children of Mr. and Mrs. Grace Risco are down with the whooping cough, the younger, 19 months old, being very ill.

Theo Winters blew out the gas in a Virginia City hotel the other night and barely escaped asphyxiation. Mr. Winters must have gone to bed excited.

A champagne drunk costs 25 cents per cent, more than it did before the McKinley Tariff bill went into effect. The price of the pretty wine has been raised from \$4 to \$5 per quart.

The McKinley Tariff bill has put the price of imported cigars beyond the reach of any but millionaires, and the common herd will have to confine themselves to the domestic article hereafter.

It is a fact that Hood's Sarsaparilla cures scrofula, salt-rheum and other diseases or affections arising from an impure state or low condition of the blood, overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

## PERSONALS.

R. W. Ash is sick with typhoid fever.

Colonel Hardin, the Humboldt County Stockman, passed west last evening.

Mrs. I. Fredrick and son Hyman returned yesterday morning from California.

Surveyor General Turrittin has returned from a business trip to Elko and Humboldt Counties.

George H. Mills, rymaster of the V. & T. R. R., was in town last evening paying off for September.

Mrs. Ida Strowbridge, daughter of Mr. and Mrs. G. W. Meacham former of the Humboldt House, passed East this morning.

Mrs. A. G. Gaul, mother of Mrs. W. S. Bender, arrived this morning from Los Angeles. She will spend part of the winter here.

Sam Bowman the capitalist, who during the past Summer, has been visiting the scenes of his early life in the old Keystone State, returned this morning.

R. V. Dey, who at one time was United States Marshal of Nevada, and who later, during the trip around the world with James G. Fair, arrived from the West on this morning's overland.

## To Dispel Cold.

Headaches and fevers, to cleanse the system effectually, but gently, when costive or bilious, or when the blood is impure or sluggish to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy action, and to drive out all weakness, then, use Syrup of Figs.

## A BUSINESS PROPOSITION.

A City Lady Who Required Proof Before Believing.

There recently appeared in the San Francisco Call, Chronicle and Examiner, a proposition hitherto unheard of. It was an advertisement in which the Edwin W. Joy Company, in proof of the curative properties of Joy's Vegetable Sarsaparilla, offered to submit it to the terrific test of "no cure no pay." Many accepted, and their experience was so convincing as to be almost beyond belief. Here is another, written under date January 6, 1890:—

DEAR SIR: I accepted your offer to test the merits of your Sarsaparilla in such headach, and called for a bottle and got it. I had been troubled for a long time, and had tried nearly everything, with little or no effect; but Joy's Vegetable Sarsaparilla acted almost like magic, and the first bottle cured me of the worst case of sick headache ever had. B. PRICE.

16 Prospect Place, San Francisco. We will from time to time publish others of these letters. It is doubtful if any remedy was ever before submitted to such a severe ordeal.

## Stimulate the Blood.

Brandreth's Pills are the great blood purifier. They are a purgative and blood tonic, they act equally on the bowels, the kidneys and the skin, thus cleansing the system by the natural outlet of the body—they may be called the purgative, sudorific and diuretic medicine. They stimulate the blood so as to enable nature to throw off all morbid humors, and cure disease so matter by what name it may be called. One or two of them taken every night will prove an infallible remedy.

Brandreth's Pills are purely vegetable, absolutely harmless and safe to take at any time.

Sold in every drug and medicine store, either plain or sugar coated.

## A Cure for Sick Headache.

This distressing complaint is due to an inactive or sluggish liver with constipated bowels which derange the stomach and disturb the nervous system, causes dizziness and an oppressive dull pain in the head, often so severe as to prevent all rest or sleep. One of Dr. Gunn's Improved Liver Pills will relieve you of all the pain and misery and a few more doses will correct the liver and stomach and regulate the bowels. While these pills are small, easily taken, and mild and gentle in their action there is no medicine made that will so effectively cure sick headache. 25 cents a box. Sold by S. J. Hodgkinson.

## ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, its many excellent qualities commend it to all. It is for sale in 50c and \$1 bottles by all leading druggists.
